

## BASIC INFORMATION ABOUT YOUR FLIGHT

Flying in a wind tunnel HURRICANE FACTORY is designed for those who want to experience the sensation of flight and free fall, without having had previous experience with flying. You can fly in air stream of speed around 270 km/h, which is the rate corresponding to a real hurricane. Flight chamber with a diameter of 4,3 meters is closed for the duration of your flight and whole time you fly under the supervision of an experienced instructor. Instructor shows you how to control your body by using hand signals and in a short time you will learn how to move in the air stream.

Arrive to HURRICANE FACTORY wind tunnel at least 60 minutes before your flight. You can have your family and friends with you,

who can watch your flight, take pictures or shoot. We recommend comfortable clothes under the suit and lace-up shoes.

After you fill in and sign a declaration of flyers at the reception, you will receive a detailed briefing and ground training from our qualified instructors. Then you will get suit, helmet and goggles and you can go fly. HURRICANE FACTORY wind tunnel is equipped with a recording system that allows you to get a record or photos of your flight as the memory of this extraordinary experience.

Everyone from 5 to 100 years old without serious health problems can fly! Persons under 18 require the consent of a parent or guardian.
